

Adani Institute of Infrastructure Engineering (AIIE) Ranks 1st in GTU Results

Ahmedabad: Adani Group backed Adani Institute of Infrastructure Engineering (AIIE) has stood first amongst 112 affiliated colleges of Gujarat Technological University (GTU), in the first semester BE results.

The Director General, Adani Institute for Education and Research (AIER), Prof. Bhavesh Patel says, “The Adani Group has always believed in offering the nation the best in every field. This result is a reflection of our distinctive strengths which include exceptional and experienced faculty, infrastructure specific curriculum, innovative teaching methodologies, and industry exposure right from the first semester. The exposure to industry, whether in Adani Group or outside, through field visits, special lectures by industry experts, active industry mentorship and many such other features have prepared the students so well that they are not only academic achievers but also ready for the industry.”

Expressing views on the achievement of the institute, the Trustee, AIER, Dr. Malay Mahadevia says, “I am very happy with the way I see the Institute developing in just a span of a year. The Adani Institute for Infrastructure is the first of its kind in India which is imparting high quality education along with industry interface and applied research in the sector. The programs are aimed at preparing competencies amongst the students so that they align their career and serve our nation’s need in Infrastructure sector.”

Supported by the Infrastructure conglomerate Adani Group and guided by the Infrastructure visionary of the nation, Shri Gautam Adani, the group had established Adani Institute for Education & Research (AIER) in the year 2009. With an objective to provide the youngsters of the nation a platform to be the “Nation Builders”, AIER was instituted to impart them with requisite skills and training for contributing towards nation building. Currently, AIER has two functioning institutes which offer niche courses in Infrastructure Engineering and Infrastructure Management. Launched in 2015, Adani Institute of Infrastructure Engineering (AIIE) offers specialized engineering courses in Civil & Infrastructure Engineering and Electrical Engineering while Adani Institute of Infrastructure Management (AIIM) offers a full time two year PGDM degree in infrastructure Management.
